Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 17, 18, and 22-24, drawn to a method for filling a natural hollow elongated casing with a meat emulsion.

Group II, claim(s) 7-9, drawn to a method for filling a hollow elongated casing with a meat emulsion.

Group III, claim(s) 10-16 and 19-21, drawn to a machine.

The inventions listed as Groups I and II-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I includes a rotatable linking assembly, Group II includes a moving the casing hopper away and Group III includes a means for raising, pivoting and lowering the casing hopper away. These listed special technical features are claimed in their particular Group however, are not claimed in the remaining Groups. As a result, they lack the same or corresponding special technical feature.

A telephone call was made to Donald Zarley on September 22, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
